Nix&Nixie® – A whole new world of hydrotherapy.

Model 6060C - XO

Model 6060C - Deluxe

Model 6060C - Econo

Model 6060C - Air Bath

Nix&Nixie represents the combination of modern design and simple ASAP function, as simple as possible for easy use, coupled with all the benefits of advanced technology.

- All products **Made in USA**
- All products Hi-gloss **Lucite® XL**, acrylic finish.
- Standard colors- White, Biscuit, Bone, Black.
- Metal finishes- Pol. Brass, Brushed Nickel, Pol. Chrome.
- All products available 115V 50/60Hz. or 230V 50/60Hz.
- Soaking tub only models are same as Econo-line whirlpool models without system, some models have recessed backjet area.

Nix&Nixie offers a full range of hydrotherapy systems in five product lines- XO, Deluxe, Econo, Air Bath, Soaking Tub.

- **XO** - Air/whirlpool Combined Massage System
- **Deluxe** - Whirlpool Massage System
- **Econo** - Whirlpool Massage System
- **Air Bath** - Air Massage System
- **Soaking Tub**

Syllent® pump... The quietest bath pump in the world. Less than 5dB ambient noise.

With its revolutionary centrifugal motor/pump technology, this extraordinary innovative integrated pump/motor design provides the quietest whirlpool bath experience available today while delivering unparalleled comfort and value-added features not found in traditional bath pumps.

Syllent® Hydrotherapy... The ultimate in peace and quiet.

Syllent creates a **hydro-magnetic rotor**, the **patented core technology** behind the extraordinary performance of Syllent. Only this technology can meet the consumer's need for the highest flow performance coupled with the lowest energy consumption and the quietest fluid motion.

By design, Syllent has **no noisy parts such as roller bearings, electric brushes and cooling fan** in it. With its revolutionary technology and design, Syllent delivers all the functions of a traditional motor, pump, cooling fan and heater in one totally quiet, enclosed unit.

Syllent® Technology... The revolution of bath pump.

- Syllent is **the quietest bath pump** in the world, **less than 5dB(a) noise**.
- Syllent **keeps bath water warmer longer** by capturing the heat energy from its motor- **Internal heat exchange**. **No electric heater needed**.
- Syllent is shielded with **IP68 protection**- **total protection from dust or submersion**- It could even run if totally immersed in water. Traditional pumps mostly rated under IP45 protection
- Syllent is **safe**- its own **internal water sensor** automatically shuts the pump off in the absence of water. **Bimetallic thermostat** turn the pump off automatically if overheating occurs.
- Syllent **cannot leak**- by design it has **no shaft seal**. The shaft seal between the wet end assembly(pump) and the motor in a traditional pump deteriorates over time.

Acrylic- Lucite® XL

The difference begins in the very molecular structure of acrylic. Unlike other plastics such as gelcoat/fiberglass, acrylic is naturally weather and chemical resistant, virtually non-porous. Therefore acrylic is far less susceptible to mildew, soap scum, cleaning chemicals, sun and weather which can fade or dull surfaces overtime. Cleaning is easy, using a mild bathroom cleaner and wiping with a damp sponge/cloth.

Lucite XL® continuous cast cross-linked acrylic sheet is specially formulated for superior thermoforming, chemical and stain resistant properties.

Lucite XL® exhibits the excellent surface quality needed to produce high-end bathware which is attractive and durable.

The unique benefits of acrylic

- **High-gloss finish**- Keeps it's shine through years of everyday use.
- **Easy to clean**- Hard, non-porous surface is less susceptible to mildew and algae.
- **Color fast**- Won't fade or dull in sunlight.
- **Chemical/stain resistant**- Resists common household stains.
- **High heat retention**- Warm to the touch, providing a more comfortable bathing experience.
- **Easy to repair**- Color goes all the way though acrylic, most scratches can be buffed out.

Acrylic colors

Note : Acrylic colors shown are preliminary reference only. Ask to see bathware in these colors or samples of the actual materials to confirm your selection.

PVD(Physical Vapor Deposition) coatings

The art of decorative metal finishes

The metal plating process has been used to preserve and add beauty.

Traditional wet electroplating of brass, gold, and nickel finishes require clear coats that are routinely degraded by solar radiation and can easily tarnish or corrode.

PVD is a method of vaporizing, ionizing, and depositing high purity metals and gases onto components in a vacuum chamber to achieve metal compounds that look like brass, gold, and nickel.

An electric arc is used to evaporate and ionize base metals, while reactive gases flow into the chamber. Together they form very hard, dense metal compounds on the parts.

PVD deposits metals in a vacuum chamber. It is a dry process with environmentally compliant technology. PVD coatings represent the revolution in decorative metal finish.

The benefits of PVD coatings

- Four times harder than brass and gold - **corrosion/ scratch resistance**.
- Exhibit **high levels of adhesion** that are unobtainable by means of wet electroplating.
- Require **no clear topcoats** that are easily degraded by solar radiation-never fade or dull.
- **Superlative color consistency and stability**- keep high gloss shine.
- **Environmentally compliant technology**- a dry process in a vacuum chamber.

Metal finishes

Polished Brass(PVD)

Satin Nickel (PVD)

Polished Chrome

Note : Metal finishes shown are preliminary reference only. Ask to see bathware in these colors or samples of the actual materials to confirm your selection.

XO Standard Features

Chrome electric switch
Air/ Whirlpool & light-on/off

Syllent® pump (no heater needed)
w/ Anti-vibration rubber mount legs

Hot air blower
Motor 1030w w/200watt Air Heating System
w/anti-vibration rubber mount legs

Water level sensor(dry-run protection)
20 minutes off-timer
Auto purge/ dry cycle(air)

Chrome micro whirlpool jets
w/ adjustable diverter valve

Chrome standard whirlpool jets

Chrome air jets
w/ anti-backwash check valve

Chrome hi-volume suction

Underwater mood light
w/Multi-color LED light

Headrest II w/chrome support
(available models)

Chrome grab rail (available models)

Deluxe-line Standard Features

Chrome electric switch
Air/ Whirlpool & light-on/off

Syllent® pump (no heater needed)
w/ Anti-vibration rubber mount legs

Water level sensor(dry-run protection)
20 minutes off-timer

Chrome micro whirlpool jets
w/ adjustable diverter valve

Chrome standard whirlpool jets

Chrome hi-volume suction

Underwater mood light
w/Multi-color LED light

Headrest II w/chrome support
(available models)

Chrome grab rail (available models)

AirBaths Standard Features

Chrome electric switch
Air & light-on/off

Hot air blower
Motor 1030w w/200watt Air Heating System
w/anti-vibration rubber mount legs

Air manifold
w/Anti-Backwash check valve &
Water Relief Valve

Water level sensor(dry-run protection)
20 minutes off-timer
Auto purge/ dry cycle

Chrome air jets
w/ anti-backwash check valve

Underwater mood light
w/Multi-color LED light

Headrest II w/chrome support
(available models)

Chrome grab rail (available models)
